

**Why is glutathione important?**

- Protects cells from oxidative stress and toxins
- Supports the immune system

**Where does it come from?**

The body produces its own glutathione, but levels can be depleted by poor diet, pollution, toxins, stress, aging and infections

**A recent published study shows:**

**1** Setria<sup>®</sup> can help increase the body's stores of glutathione\*

6 Months  
Setria<sup>®</sup> 1000mg/day

Taking 1,000mg/day of Setria<sup>®</sup> showed a 30% increase in whole blood, 35% increase in red blood cells and 260% increase in buccal cells glutathione levels

**2** Setria<sup>®</sup> can increase NK cell activity two fold and support the immune system

3 Months  
 Baseline  
 Setria<sup>®</sup> 1000mg/day

At three months the study revealed a 2 fold increase in NK cell activity at 1,000mg of Setria<sup>®</sup> (NK cells support immune health)

**3** Setria<sup>®</sup> supplementation needs to be ongoing to maintain elevated levels.

One month after supplementation ended glutathione levels began to return to pre-study levels

Setria<sup>®</sup> glutathione does not adversely affect the body's normal production of glutathione

Richie JP Jr, Nichenametla S, Neidig W, Calcagnotto A, Haley JS, Schell TD, Muscat JE. Randomized controlled trial of oral glutathione supplementation on body stores of glutathione. European Journal of Nutrition. May 2014; 1436-6207. doi: 10.1007/s00394-014-0706-z

**CONCLUSION: Setria<sup>®</sup> glutathione supplementation effectively increases the body's stores of glutathione and supports the immune system\***
