

WINTER PRODUCT RELEASE

TRANSCHEM

The key ingredient, naturally

JULY 2020

Safr'Inside™

Improves mood and emotional balance (10 clinicals)

What is it?

An active ingredient, obtained from a soft extraction process of saffron stigmas (made in France from Iranian Saffron).

Why use it?

- A dietary supplement providing quick and effective relief for mood irregularities at only 30mg/day
- Assists with sleep quality
- May provide premenstrual comfort

Need to know

- Up to 10 times more safranal than other saffron extracts
- The only encapsulated saffron extracted through the TechCare extraction process which preserves the richest native composition

Studies

- Latest results: After 15 days, 69% of people feel more zen and 77% more optimistic
- **Supported by 10 clinical studies on mood benefits**

Research backed, non-essential amino acid

What is it?

A free amino acid in the body that plays an important role in nitric oxide metabolism and regulation.

Why use it?

- An efficient way to increase blood arginine level
- Increased production of nitric oxide promotes vascular dilation which improves oxygen and blood circulation throughout the body
- Supports the relief of muscle fatigue
- Can provide antioxidant and heart protection action

Need to know

- Does not contain artificial colours or flavours
- Non-hygroscopic, highly stable, and mild taste make it suitable for use in a variety of formulations
- Easily soluble in water

Clinicals

Studies are available on request.

Available as

Powder

Targets

Heart health, Sports Nutrition, Dietary Supplements

New clinical study published

A **natural** herbal, oil-free extract from an exclusive variety of defatted pumpkin seeds, with contract cultivation.

A new pilot study (published online in the *Journal of Medicinal Food*) in humans shows it alleviates urinary symptom frequency and severity in men with Benign Prostate Hyperplasia (BPH). The study demonstrated the positive effectiveness in just 4 weeks of supplementation and there were no reported side effects.

SNEAK PEEK: COMING SOON TO TRANSCHEM

PROPOLIS

Extracted from buds produced by bees from plant bioactives to build their hives. It may help diabetes (improve blood sugar control), cold sores and inflammation in the mouth as well as burns and other sores.

ALGALIF (POWDER)

This high-grade micro algae from Iceland designed to deliver high yields of premium (award winning) natural Astaxanthin.

This powerful antioxidant neutralises free radicals and can benefit cardiovascular, eye and skin health as well being good for anti-ageing and sports performance. It will also soon be available as a powder.
